DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 28 February 2007 has been entered.

Response to Amendment

2. Applicant's amendment and remarks received on 28 February 2007 have been entered.

Allowable Subject Matter

3. Claims 1, 3-13, 15-23, 25, and 27 are allowed.

4. The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows or suggests a plasma display apparatus comprising, in addition to other limitations of the claim, adhesive tapes to fix a plasma display panel directly to a main frame, wherein the main frame comprises plural holes arranged regularly at established intervals on the portion where the adhesive tapes contact the main frame and are fixed, and the holes form a passage for drawing air from the surface between the adhesive tapes and the main frame. Due to their dependency upon independent claim 1, claims 3-12 are also allowable.

Art Unit: 2879

5. Regarding independent claim 13, the prior art of record neither shows or suggests a plasma display apparatus comprising, in addition to other limitations of the claim, adhesive tapes to fix a plasma display panel directly to a main frame, wherein the main frame comprises plural recesses arranged regularly at established intervals on the portion, to which the adhesive tapes are fixed, of the surface to which the adhesive tapes contact the main frame and are fixed, and the recesses have cavities between the adhesive tapes and the main frame and form air bubbles in the cavities. Due to their dependency upon independent claim 13, claims 15-22 are also allowable.

6. Regarding independent claim 23, the prior art of record neither shows or suggests a plasma display apparatus comprising, in addition to other limitations of the claim, adhesive tapes to attach a plasma display panel directly to a main frame, wherein the adhesive tapes comprise plural holes arranged regularly at established intervals on the adhesive tapes, and the holes form air bubbles in the holes between the plasma display panel and the main frame.

7. Regarding independent claim 25, the prior art of record neither shows or suggests a plasma display apparatus comprising, in addition to other limitations of the claim, adhesive tapes to fix a plasma display panel directly to a main frame, wherein the adhesive tapes comprise plural recesses arranged regularly at established intervals on at least one of the surface in contact with the plasma display panel or that are in contact with the main frame, and the recesses have cavities between the adhesive tapes and the main frame or the adhesive tapes and the plasma display panel and form air bubbles in the cavities.

Art Unit: 2879

8. Regarding independent claim 26, the prior art of record neither shows or suggests a plasma display apparatus comprising, in addition to other limitations of the claim, a main frame having plural small holes and adhesive tapes placed over the plural small holes, contacting and affixing the main frame to a plasma display panel, wherein the plural holes are arranged regularly at established intervals on a portion where the adhesive tapes contact the main frame and are fixed, and the holes form a passage for drawing air from the surface between the adhesive tapes and the main frame.

9. The subject plasma display apparatus structure described above is provided for drawing off air bubbles or preventing air bubbles from forming to improve the rigidity of the plate materials. The design is new and unique to the art.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sundahl (US 2003/0011724) discloses repairable tiled display structures.
